

SMART GOAL SETTING WORKSHEET

Setting clear, well-defined goals is the foundation of all professional achievement. The SMART framework transforms vague aspirations into powerful, actionable objectives that dramatically increase your likelihood of success. Each letter in SMART represents a critical quality that your goal must possess: **Specific, Measurable, Achievable, Relevant, and Time-bound**.

The SMART Goal Framework

S

S - Specific

Define what exactly will be accomplished, who's involved, where it will happen, and why it's important.

Vague: "I want to improve my coloring skills." Specific: "I will master balayage techniques for creating natural-looking dimension on dark hair."

M

M - Measurable

Include concrete criteria for tracking progress and determining goal achievement.

Vague: "I want to grow my social media presence." Measurable: "I will increase my Instagram followers from 500 to 2,000 and maintain a 5% engagement rate."

A

A - Achievable

Ensure the goal is possible with current resources and constraints while still stretching abilities.

Unrealistic: "I will double my client base in one month without marketing." Achievable: "I will add 2 new clients per week through referrals and optimizing my online presence."

R

R - Relevant

Align the goal with broader professional vision and core values to ensure it's worthwhile.

Irrelevant: "I'll learn nail art" (for a hairstylist building a hair-only salon) Relevant: "I'll develop expertise in creative updos to expand bridal services."

T

T - Time-bound

Set a clear deadline to create urgency and support prioritization.

Open-ended: "I'll eventually take a business course." Time-bound: "I will complete a salon business certification by December 31st."

SMART Goal Worksheet

Goal Description

Write a brief description of what you want to achieve. Don't worry about making it SMART yet.

Describe your goal here...

SMART Components

S - Specific: What exactly will you accomplish? What specific skills, knowledge, or outcomes are you targeting?

Your specific details here...

M - Measurable: What exactly will you accomplish? What specific skills, knowledge, or outcomes are you targeting?

Your measurable details here...

A - Achievable: What exactly will you accomplish? What specific skills, knowledge, or outcomes are you targeting?

Your achievable details here...

R - Relevant: What exactly will you accomplish? What specific skills, knowledge, or outcomes are you targeting?

Your relevant details here...

T - Time-bound: What exactly will you accomplish? What specific skills, knowledge, or outcomes are you targeting?

Your time-bound details here...

Refined SMART Goal Statement

Rewrite your goal in a complete SMART format.
